A Collection of Pages

1M³

A selection of notebooks; unfinished books; unreadable books; books as exhibitions; as single works; as incomplete pieces. Books on repetition; on color. Books based on a single work or books with thousands of pages from a personal archive.

Books on Repetition
Das Buch der Bilder

An atlas taking shape through fragments /
An image atlas of the subjective
The calm and collected nature of
indefinable printed objects circulating around

A book which documents something that never happened
Notebooks devoid of text and commentary
An extremely sophisticated book

A picture book in the form of an exhibition
A starting point for an installation in the shape of a book
To work in series primarily for publications rather than for exhibitions
Images being made to be published in a book
Series that often take the final form of a publication
To produce pages or whatever else to put in a book

Thinking of artist's book pages / Lost in the pages of artist's books /
Hours spend flicking through artist's books / Artist's book pages
which are being reassembled and shifted on a daily basis

A collection of pages
The relentless repetitive pages
Finding a specific page in a book / Finding a specific page in a book
A density of material on 32 pages
The conscious page
The most beautiful pages
To fill a page with notes everyday
Type patterned pages
